

# European Courses in Quantum Agriculture with Hugh Lovel and Shabari Bird

February 2020  
Denmark & Norway

Learn how agriculture works in harmony with nature and how to improve yields, eliminate weeds and pests and improve crop responses to weather while harvesting both carbon dioxide and nitrogen from the atmosphere and building these into the humus in our soils.

p e r i o d i c  t a b l e	3 Li Lithium 6.941	4 Be Beryllium 9.012182	5 B 1 Boron 10.811	6 C 7 Carbon 12.0107	7 N 4 Nitrogen 14.0067

*"What is missing is LIFE, but it's not exactly something you can just order from the LIFE merchants and pay a monthly bill for."*

## Courses 2020:

11-13 February

**Intermediate course**

Kullerup, Nyborg, Denmark

15-16 February

**Intro course for farmers and students**

- SJH, Aurland, Norway

3 hours by bus from Bergen

18-21 February

**European Advanced course**

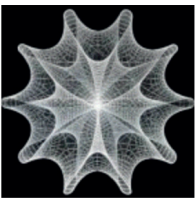

- Fokhol, Stange, Norway

Only 40 min from Oslo Airport

*Read more next page!*

**Hugh Lovel** and his wife **Shabari Bird** consult farmers in Europe, USA, Australia and South Africa. They currently reside on their homestead in Blairsville, Georgia, USA, where they offer courses and webinars. He is the author of many articles on fertility management and crop nutrition as well as topics concerning radionics and biodynamics.

Hugh built upon his education in mathematics, physics, chemistry, biology and psychology to formulate his concepts and developments during more than 30 years of farming, first in the mountains of northern Georgia, USA, and in Australia. He is the author of the classic book *A Biodynamic Farm* and is a frequent contributor to *Acres U.S.A.* and other magazines, as well as the new book *Quantum Agriculture — Biodynamics and Beyond*.

# Courses in Quantum Agriculture with Hugh Lovel and Shabari Bird

## 3 Day Course, Denmark 11 - 13 February 2020

**Day 1:** The Biochemical Sequence. The Humus Flywheel. Interpreting Soil Needs. Building the Whole Farm Soil Food Web.

**Day 2:** Farming Soil and Atmosphere. The Five Sisters Meet the Boys (Cations, Metals). How Plants Grow. Composting.

**Day 3:** Introduction to Dowsing, Homeopathy, Radionics and Biodynamics. Creative Use of the Biodynamic Preparations.

**Venue:** Kullerup, Nyborg, Denmark  
[www.kullerup.dk](http://www.kullerup.dk)

**Course fee:** 750 € (5.625 DKK + moms) per person. Catering included.

**Registration and information:**  
[erikfrydenlund@gmail.com](mailto:erikfrydenlund@gmail.com)  
Book by 1st of February.

**Accommodation**  
can be booked separately.

### **Benefits of courses:**

*Improve your observation • Weeds as indicators • Turn experience into insight • Deepen understanding of Hugh Lovel's Natural Biochemical Sequence • Economically self-regenerate soils • Understand how plants and soil thrive • Produce abundant trouble free crops • Use tests to educate your eye • Find causes rather than treat symptoms • Design crop systems that contribute to natural bounty • Lively Evening Discussions • Meet new friends and join our Quantum Agriculture Global Community - Welcome !*

## 2 Day Course for Farmers and Students, Norway 15 - 16 February 2020

**Day 1:** What Makes A Farm Whole/ Building the Soil Food Web. Interpreting Soil Needs. The Biochemical Sequence. The Humus Flywheel. How Plants Grow.

**Day 2:** Introduction to Holistic Thinking. Farming Soil and Atmosphere. Understanding the Interplay of C, O, H, N, S and Soil Minerals. Composting and Manure Management

**Venue:** Sogn jord- og hagebruksskule, Skulevegen 24, 5745 Aurland, Norway

**How to get there:**  
3 hrs by bus/car from Bergen

**Course fee:**  
5 000 NOK (ordinary);  
500 NOK (student).  
Two lunches included.

**Registration and information:**  
[vibhoda@vitalanalyse.no](mailto:vibhoda@vitalanalyse.no)  
Book by 5th of February.

**Accommodation**  
can be booked separately

## 4 Day European Advanced Course, Norway 18 - 21 February 2020

**Day 1:** Scientific Foundations--Goethe's Theory of Knowledge (as an Approach to Phenomena in Agriculture). Soil Mechanics--Interpreting Soil Health and Needs. The Biochemical Sequence. The Humus Flywheel. Building the Soil Food Web and How Plants Grow.

**Day 2:** The Earth through the Cycle of the Year. The Importance of Winter for the Soil Fertility. Biodynamics and Composting. The Biodynamic Preparations and their Use.

**Day 3:** What is Nutrition? How does Food Nurture the Different Levels of the Human Being (Physical, Life Force, Soul and Spiritual)?

**Day 4:** Biodynamics and Beyond. Introduction to Dowsing. Homeopathy and Radionics. A Biodynamic Approach to Problem Solving.

**Venue:** Fokhol gård, Fokholgutua 216, 2335 Stange, Norway  
[www.fokhol.no](http://www.fokhol.no)

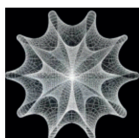

**How to get there:**  
40 min by train from Oslo Intl Airport

**Course fee:**  
1.000 € (10.000 NOK) per person.  
Three meals a day included.

**Registration and information:**  
[vibhoda@vitalanalyse.no](mailto:vibhoda@vitalanalyse.no)  
Book by 5th of February

Accommodation can be arranged.
